

# What to bring to your College Application Month event

Preparation is important so you can make the most of your College Application Month event. Make sure you bring the five items below to make applying to college as easy as possible.

1. **High school transcript:** Some colleges will ask about classes you've taken and the amount of credits. It may be helpful to have your dual credit transcripts available as well.
2. **Campus Connection login information:** You'll need this if you're applying to a college that you've already taken dual credit through. Make sure to have that information handy so don't get stuck at the beginning of the application.
3. **Social security number:** Make sure to have this number memorized.
4. **Application fees:** Bank of North Dakota will pay for one application fee (up to \$35) to a North Dakota college or university. If you're applying out of state or to multiple institutions, make sure you have a debit or credit card handy to pay the fees.
5. **Cellphone:** You might need to call your parents with a question, verify your email address or call the college with a question.
