

REGIONAL COLLEGE COST SHEET 2015/2016

Bank of North Dakota's college planning guide

Selecting a school is a major decision. Base your choice on careful research and decide which school is right for you. After all, you will be spending a lot of time and money while earning your degree. Some of your best sources of information are close at hand. Talk to high school counselors, college admission offices, a friend attending college, parents and relatives.

Some things to consider when choosing a school:

- Does it have the major I'm interested in?
- Do I want a small or large campus?
- Do I want to be close to home?
- What are the costs and average student debt?
- What is the student-to-professor ratio?
- What is the job placement rate?
- What is the school's graduation rate?

School expenses can vary depending on the campus you attend, the number of credits you take and your transportation and housing choices. The cost of attending college also is affected by your residency. Students who qualify as a state resident usually pay tuition at a substantially reduced rate compared to non-residents. These budgets are estimates for the 2015-2016 school year and are used for awarding financial aid. The information was furnished by each institution's financial aid office and is subject to change. Students are encouraged to compare program curricula before making a decision on which school to attend. Check with each financial aid office to determine your specific budget based upon residency status or reciprocity agreements. Since costs vary from school to school, students should not use the budgets solely for determining which school they will attend.
